RULES FOR USE AND MAINTENANCE OF TRAYS

IMPORTANT :

Regardless of the type of material, all flat pans should never be **baked empty** .

Aluminised sheet pans

They must be kept oiled, but as the sheet metal is treated and coated with aluminium, they have greater resistance to oxidation.

Before use they should be placed in the oven at **150°C for half an hour** , in order to eliminate the protective industrial oil.

They can be used in leavening and freezing rooms, preferably after cooking.

To clean, use a **soft oiled cloth** . Washing is not recommended.
