**PROFESSIONAL DESCRIPTION**

**PIZZA MOLDERS for forming pizza dough discs with a diameter of 500 mm:**

- **stainless steel construction** ,
- **high hourly production** , without the use of specialized labor;
- the **perfect uniformity of shape** and thickness of the dough disc without giving up the **traditional edge**, obtained thanks to the special shape of the chromed plates;
- the possibility of **easily varying the thickness of the dough discs** ;
- the creation, thanks to the action of the **electronically controlled temperature of the dishes** , of a thin solid layer of starch gel on the external part of the dough, which allows, by retaining the gases, to obtain perfect cooking of the pizza even on the inside.
- this equipment, built entirely in stainless steel, is equipped with all the **safety devices** required by international regulations;
- **pizza diameter: 500 mm** ;
- worktop height: 600 mm;
- maximum absorption: Kw.6.6;
- average consumption: 4.6 kW;
- V.230/1 single-phase or V.230/3 three-phase available on request.

**CE mark**  
**Made in Italy**
