Services and Technologies for professional catering since 1973

PROFESSIONAL DESCRIPTION

REFRIGERATED SHOWCASE for WINES, Glass on 2 sides/double-sided, Ventilated refrigeration, capacity 240 Bordeaux bottles :

- **was born for the new methods of consumption and encounter with the universe of wine** : from the trendy wine bar to the large international hotel, from the classic restaurant to the new leisure places, from the historic wine shop to the temples of taste, from the cruising, yachting and, why not, the most exclusive residences;
- **door frame in gray anodized aluminium** ;
- **an aesthetically innovative , minimal , thick** frame, which creates a particular chiaroscuro effect framing the products on display;
- **integrated lock and an elegant recessed handle** that provides an excellent grip and avoids annoying protrusions towards the user;
- **polycarbonate and stainless steel shelves can be positioned at different heights and reclined** , simply move the screws with which they are fixed to the central bar;
- **easily removable shelves for complete cleaning** (even in the dishwasher)
- **The shelf system allows for total flexibility and display freedom** , the user can configure the composition he prefers, favoring maximum capacity or optimal visibility;
- **the versatility of the shelf system** , which can be easily repositioned, and the total absence of bulky elements inside the bottle compartment, such as grills or cooling devices, guarantee maximum capacity, promoting greater functionality, practicality and ease of access to the products;
- **version with humidity control available** (Code H2400/BFU);
- **standard colours** : **semi-gloss black** and **satin aluminum grey**.
