

PROFESSIONAL DESCRIPTION

- **OPAL GLASS**

100% glass with a characteristic white color, thanks to the use of fluorine. Opal glass products are synonymous with hygiene, resistance to liquids, high impact resistance and ease of use. Opal glass products are dishwasher safe.

- **TEMPERED GLASS**

Glass treated with the technological tempering process which, acting on the molecular structure of the glass, makes the products particularly resistant to shocks and temperature changes and makes them optimal for intense, safe and repeated use over time.

- All PRICES are UNITS ... for 1 PIECE
- The minimum order quantity is indicated in the individual articles.
