PROFESSIONAL DESCRIPTION

## **QUADRO WINE REFRIGERATED DISPLAY, with 3 BOTTLES, Temp. +8°/+14°C :**

- **Design and technology come together** to create the first refrigerated panel ever made in the world. **An absolutely innovative object, with a refined design, capable of making every environment in which it is inserted special ;**
- The Quadro Vino n.30 **allows you to display 3 bottles of sparkling wine and keep them at the right serving temperature .**
- On this model it is **possible to choose the option of vertical display of the bottles, ideal for service by the glass ;**
- **The internal temperature varies from +8° to +14 °C** depending on the ambient temperature;
- It allows you to store and serve different wines at the right temperature;
- **Refrigeration is obtained through a silent ventilated thermoelectric system controlled by an electronic thermoregulator** through which it is possible to set and display the temperature;;
- **Ecological refrigeration system** free of polluting gases and built with recyclable materials;
- Replacing the components is simple and always makes repairing the product convenient;
- **The minimal depth and wall installation allow it to be inserted even in very small spaces ;**
- **It finds easy insertion in restaurants and hotels but also in private residences.**
