PROFESSIONAL DESCRIPTION

POT CLEANER without metal structure, PULI18 Line:

- specially designed to **quickly and optimally remove processing residues** , produced by turbomixers, from the surface of medium-large sized pots and pans used in professional kitchens and in the food industries;
- thanks to its limited size and exclusive connection to the electricity grid **it can be easily positioned anywhere** ;
- the **ergonomic handle** and the **kit of brushes** of different shapes, sizes and materials **allow you to operate comfortably and effectively** ;
- motor-flexible gear transmission;
- **brush speed 500 rpm** ;
- **flexible length 2000 mm** ;
- 24 V controls;
- protection class IP 65;
- **provision for wall mounting** , optional;

Supplied :

- 4 nylon brushes, 2 stainless steel brushes, brush holder bracket, protective glasses.

Options/Accessories :

- Wall brush holder shelf.
