

PROFESSIONAL DESCRIPTION

Rectangular pan in aluminised sheet for small pizzas or other, dimensions 60x40 cm, complete range from 8 to 24 molds of various sizes.

INSTRUCTIONS FOR USE AND MAINTENANCE OF TRAYS

IMPORTANT :

Regardless of the type of material, all flat trays should **never be placed in the oven empty** .

Trays in aluminized sheet

They must be kept oiled, but since the sheet is treated and coated with aluminum, they have greater resistance to oxidation.

Before use, they must be placed in the oven at **150 ° C for half an hour** , in order to eliminate the industrial protective oil.

They can be used in leavening and freezing cells.

For cleaning, use a **soft oiled cloth** . Washing with water and caustic solutions is not recommended.
